

Free up time. Reclaim your training resources.

The L&D and training decades-long challenge.

*Long delivery times, high course
demand, never enough resources.*

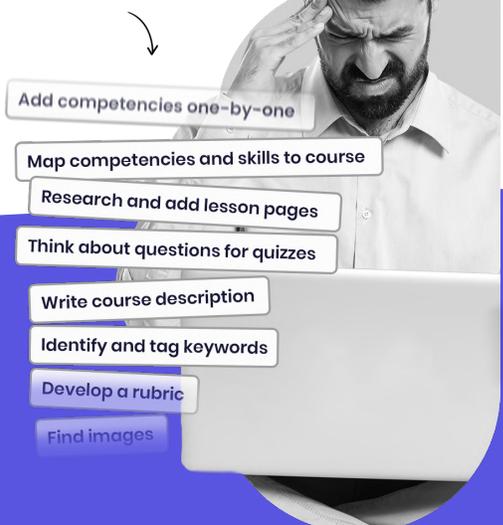

The time and budget to develop, update, and deploy high-demand courses are increasingly scarce in business. **It's costly. It's convoluted. It's complex.**

Creating engaging content at a rapid pace remains an uphill battle for many content developers. Leveraging AI has been a challenge when the output is generic and prone to hallucinations. Uploading content, devising quizzes, mapping competencies, supporting multiple languages, formats and neurodiversity all devour precious time. Personalized learning is a whole other dimension to layer on. Unruly tech stacks and time-consuming workflows hinder modern learning.

The training experience suffers — slow, unscalable, requiring constant investments in money and personnel with inadequate tracking and an inability to meet learner demands for new or niche topics because of restricted resources. This is why the dream of personalized learning continues to elude businesses.

Traditional way

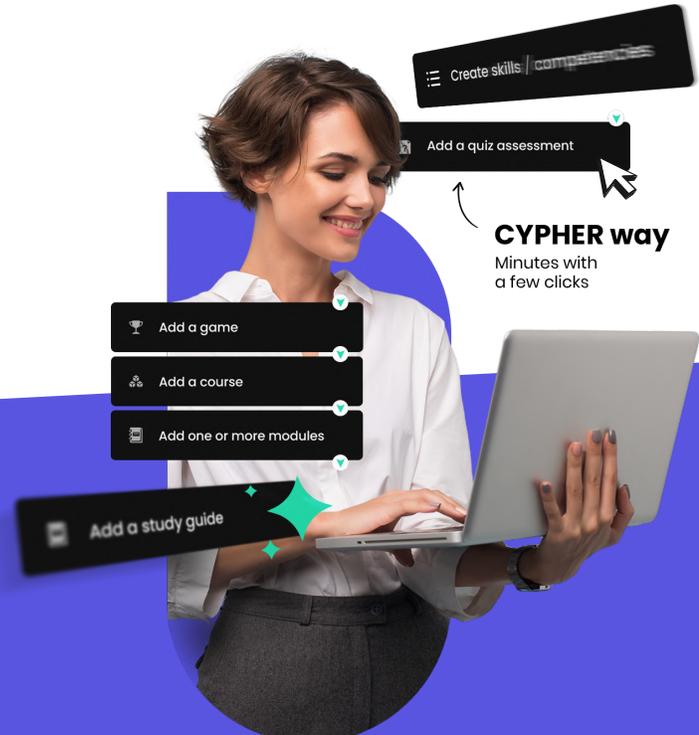

Weeks and months of work

- Add competencies one-by-one
- Map competencies and skills to course
- Research and add lesson pages
- Think about questions for quizzes
- Write course description
- Identify and tag keywords
- Develop a rubric
- Find images

CYPHER way

Minutes with a few clicks

- Create skills / competencies
- Add a quiz assessment
- Add a game
- Add a course
- Add one or more modules
- Add a study guide

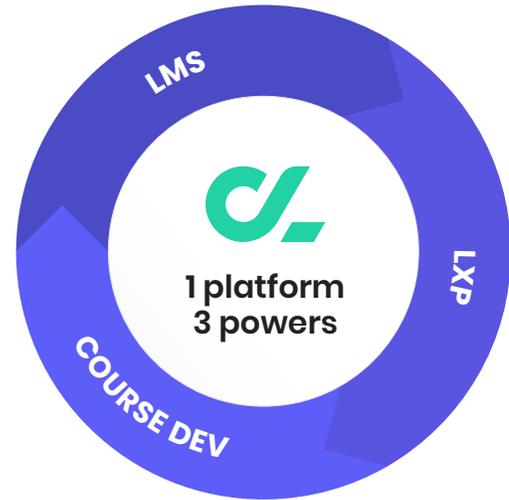

AWARD-WINNING PLATFORM

AS SEEN ON

CYPHER obliterates these challenges

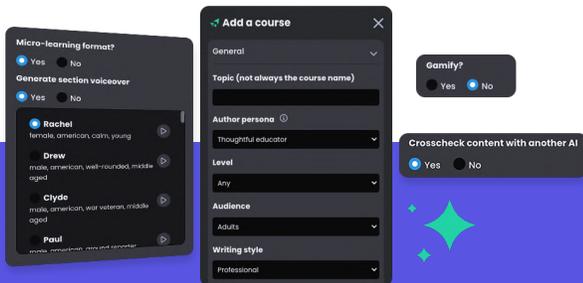

1 platform, 3 powers LMS + LXP + AI-powered course development

CYPHER is more than an LMS. It unifies course creation and delivery, embeds and automates skills development, and powers learners, course creators, and administrators with AI. Consolidate your tech stack, simplify your workflow, and scale your learning and development offerings.

We fuse course development, delivery, and skills with AI to:

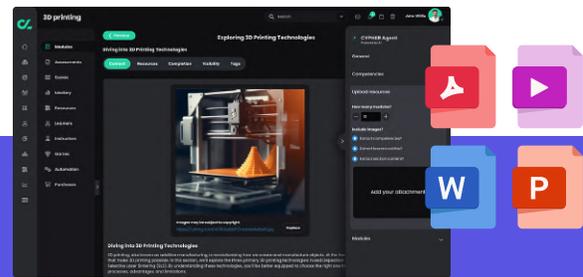

- Elevate the learning experience at every juncture
- Deliver learning at the pace of change
- Automatically map skills to learning at a granular level
- Create measurable and impactful learning with a maximum ROI
- Provide personalized learning at scale
- Reduce the resources needed for creating and delivering learning

How CYPHER uniquely supports business

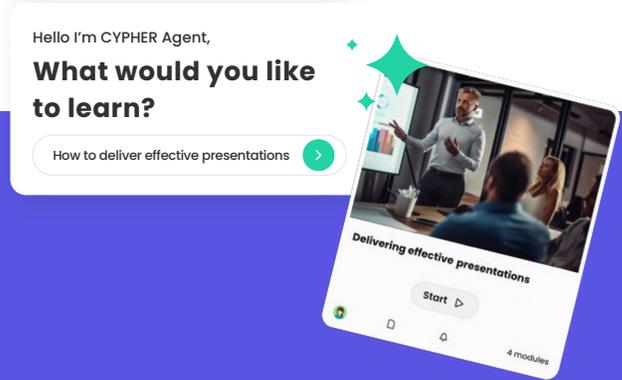

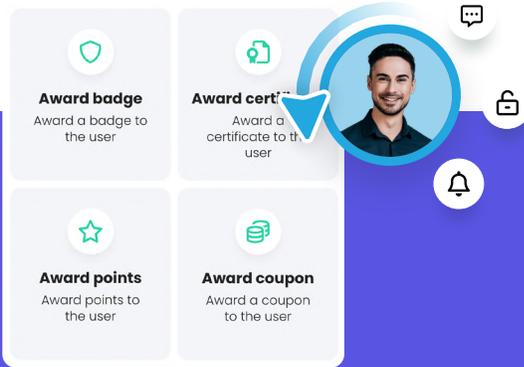

AI-powered course creation, under your control

CYPHER Agent for course creators helps you build complete, on-brand courses quickly and efficiently, with your own tone, level, and voice. Use our options menu to control the output, translate into 50+ languages, add narration, and trust the results with AI Crosscheck for accuracy.

Tailored to your content and brand

Upload your own PDFs, videos, or slides to keep courses aligned with your terminology and style. Add voiceovers, adjust instructional tone, and build in assessments and gamification with just a few clicks — so subject matter experts can become course creation pros.

One platform to create and deliver

Create and launch engaging, personalized courses in minutes—not days. From content to assessments, skills mapping to gamification, CYPHER’s unified platform handles it all, backed by robust automation and authoring tools.

Instant, on-demand learning

With CYPHER Agent learners can ask a question and get an AI-verified, contextual answer — right when they need it. Responses are guided by the learner’s role and the organization’s priorities, with built-in controls to ensure relevance and compliance.

Competencies		The world in spatial terms	Planets
Learners	Average	82%	89%
McGill, Anthony	70%	78%	93%
Besto, Bex	77%	88%	98%
Aaron, Billy	90%	82%	93%
Sally Johnson Tornado	1171	12	78%

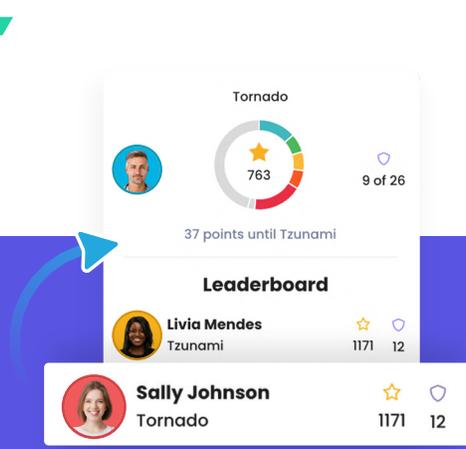

An interface designed for humans

The CYPHER interface is gorgeous, intuitive, and easy to use. From graphical dashboards to adaptive learning paths, our human-centric approach focuses on clarity over complexity, so users find everything they want exactly when and where they expect. “The best way to describe the tech is to say it anticipates the moves of the learner,” said Brandon Hall Group.

Personalized skill-building at scale

CYPHER revolutionizes conventional, uniform skills training with its competency-focused strategy. CYPHER provides insight into mastery levels and offers tailored learning recommendations. With CYPHER Agent, courses are automatically competency mapped, allowing for personalized learning at scale.

End-to-end automation

CYPHER is the only platform built around sophisticated automation to heighten efficiency and scalability. Our advanced automation powers platform-wide gamification, learner engagement, and streamlines administrative workflows. This foundation allowed CYPHER to be the leader in embedded AI.

Built for a global workforce

CYPHER is the sole platform offering a real-time cross-language communication tool (Universal Translator) for increased inclusive collaboration and community, and multi-lingual course creation. The platform supports over 50 languages.
