Administrator's guide: How to use Turnitin Feedback Studio in NEO LMS

Getting started guide for Administrators

Overview

Turnitin is a global company dedicated to ensuring the integrity of education and meaningfully improving learning outcomes. Turnitin can:

- Safeguard institutional reputations and deter plagiarism with the world's most comprehensive collection of internet, academic, and student paper content, ensuring reliable results when checking student work for text similarity.
- Empower instructors with time-saving grading and personalized feedback tools that engage students, develop critical thinkers, and drive career readiness.

Turnitin products are used by educational institutions and certification and licensing programs to uphold integrity and increase learning performance, and by students and professionals to do their best, original work.

Turnitin Feedback Studio is a cloud-based service offering originality checking, online grading, and peer review tools that save teachers' time and provide rich feedback to students. Unlimited draft submissions maximize the opportunity for formative learning, industry-leading plagiarism detection ensures that students know how to properly cite and reference the ideas of others, and standards-aligned feedback tools streamline the process of helping students improve as writers and critical thinkers.

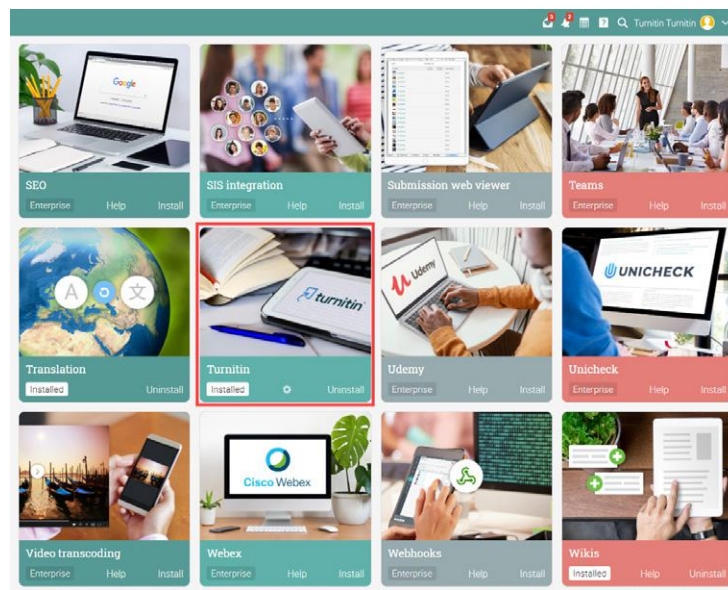

To use Turnitin Feedback Studio integration, you must have a Turnitin account or create a new one.

Getting started guide for Administrators

Configuring Turnitin Feedback Studio

1. To enable Turnitin Feedback Studio, go to Admin/App center and install Turnitin.

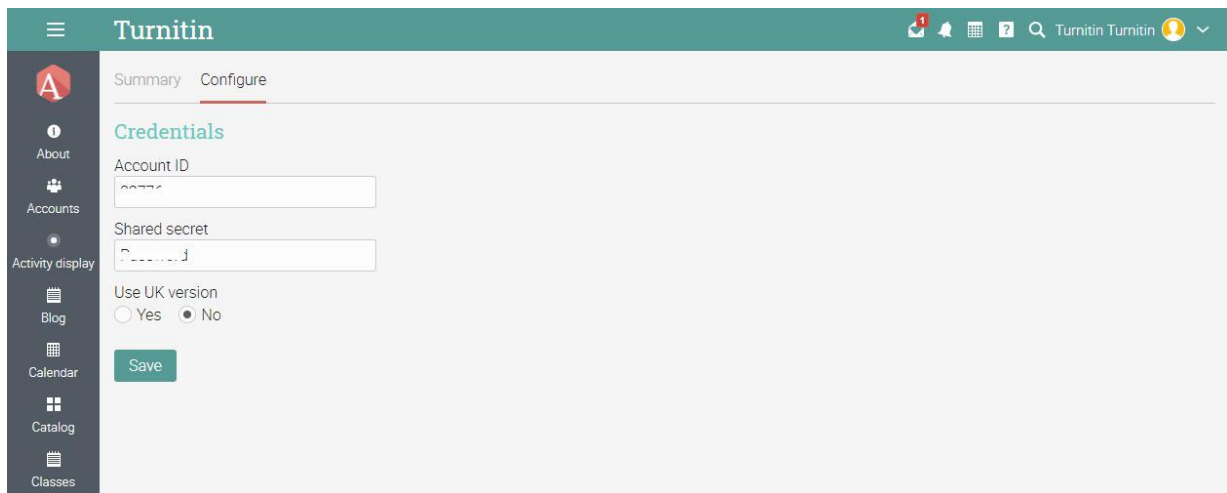

2. Then click the gear icon to configure and set up Turnitin Feedback Studio.
